The Hancock County Mural Trail is a collaborative program between Awakening Minds Art and Visit Findlay. AMA coordinated the creation of eight new murals as part of their Community Mural Project.

The AMA Community Mural Project was designed to create opportunities for collaboration and to encourage conversations about the arts, their benefits, and how they can relate to our community. AMA encourages you to visit, interact and take pictures in front of the murals. Post your pictures to social media using hashtag #artmakesmeconnected.

Further explore the arts in Findlay and Hancock County by visiting local galleries, take in a show, or celebrate our community's culture. Learn about all the ways to enjoy the arts at VisitFindlay.com
